

VERTICAL UNIVERSAL MIXER MTI UNI TEC®

Made in Germany - Made by MTI

The new generation of universal mixers

The all-rounder – definitely the right solution

MTI Uni tec® – universally applicable processing unit to realise specific product characteristics for various applications

MTI Uni tec® – homogenising with minimal energy input

MTI Uni tec® – coating and granulating with highest process safety

MTI Uni tec® – excellent dispersion of cohesive products

MTI Uni tec® – vessel in special design allows a low-residue discharging and easy cleaning

- Process optimised system solutions
- Application orientated tool design and drive capacities
- Short mixing cycles
- Innovative controls and user friendly safety technology
- Optional configurations: double jacket, chopper, spraying systems for fluids, vacuum or pressure resistant design, ATEX and many more...

MTI Uni tec® – Universally applicable for:

- mixing
- wetting
- agglomerating
- desagglomerating
- coating
- granulating
- and much more...

TECHNICAL DATA

Type	Total volume	Working volume	Drive capacity of mixer	Drive capacity of chopper*
MTI Uni tec® UT 50	60 l	18 – 51 l	2.2 kW	3 kW
MTI Uni tec® UT 100	105 l	32 – 90 l	4 kW	3 kW
MTI Uni tec® UT 250	255 l	75 – 216 l	11 kW	5.5 kW
MTI Uni tec® UT 500	505 l	150 – 430 l	11 – 37 kW	5.5 – 11 kW
MTI Uni tec® UT 750	755 l	225 – 640 l	22 – 45 kW	5.5 – 11 kW
MTI Uni tec® UT 1000	1,005 l	300 – 955 l	30 – 75 kW	5.5 – 11 kW
MTI Uni tec® UT 1500	1,515 l	455 – 1,290 l	37 – 90 kW	5.5 – 11 kW
MTI Uni tec® UT 2000	2,050 l	615 – 1,745 l	37 – 90 kW	5.5 – 11 kW

* optional

Join us and discover the **MTI Uni tec®** at the MTI R & D Center.

We prove promises!
